DETAILED ACTION

Claim Rejections - 35 USC § 103

Claims 1-4 are rejected under 35 U.S.C. 103(a) as being unpatentable over Van Erp in view of McMickle et al. Van Erp discloses the invention substantially as claimed including more than 6 insulated leads wrapped in parallel helices, apparently of the claimed pitch, however the pitch is not per se disclosed. McMickle et al. teach that changing the pitch to alter flexibility is notorious in the art. As such, merely altering the pitch of the Van Erp leads would have amounted to an obvious design choice in order to effect a desired flexibility.

In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
